About me

Passionate web developer with several months of hands-on experience and advanced English skills. Graduated from a web development training program and eager to expand his technical expertise as he continues to grow. Hailing from the Canary Islands, nationalized in Sweden, I bring a strong desire to innovate and a commitment to continuous learning. Ready to contribute to impactful projects and embrace new challenges in the technology landscape.

Work experience

Eviden

Full Stack Developer
2024 - Present

Experience as a Full Stack Development intern at Eviden, which spanned 4 weeks of intensive training followed by 4 weeks of simulated project work. I participated in technologies including Java, JavaScript and frameworks such as Angular and Spring Boot. I used GIT for version control and adopted Agile methodologies for collaborative development. Now working as a full stack developer in continuous learning doing projects.

Projects

Alphonics

Final degree project
March 2024 - May 2024

"Alphonics redefines music enjoyment with personalized playlists, genre exploration and seamless sharing. Discover, create and connect with music enthusiasts."
